

Find a place to begin

One helpful page is enough

This library contains 28 separate resources. You do not have to read them in order, complete every worksheet or use the faith studies. Start with the task or question in front of you.

A service is coming up

Start with Funeral Planning Guide for practical decisions, How to Write a Eulogy for a tribute, or Funeral Readings & Poems for four original pieces to consider. Check plans with the person leading the service.

You want support, or want to offer it

Try Caring for Yourself While Grieving for everyday needs, What to Say for words of condolence, or Supporting a Grieving Friend for practical ways to help. These resources do not replace personal or professional support.

You would like to write or reflect

A Grief Journal gives open writing space. The remembrance guides offer optional ways to keep a memory. The six faith resources work with Bible passages; use them only if that suits you.

Download only what you need

Your paid download page lists 28 ZIP files, one per resource. Open a ZIP and read its start-here instructions. Choose A4 or US Letter to match your paper. Print one test page at 100% scale. These are print-and-write guides, not editable memorial templates.
